BUILDING A STRONGER MOHAWK VALLEY REGION WITH THE POWER OF AFFORDABLE HOUSING.

New York’s Mohawk Valley region is facing a housing crisis. More than half of renters pay over 30% of their income for housing. Additionally, more than 84,000 Mohawk Valley residents live below the federal poverty line, according to U.S. Census data.

State elected officials play a vital role in building and preserving housing that low- and middle-income New Yorkers so desperately need. The New York State Association for Affordable Housing (NYSAFAH) seeks your support on key legislative and budget items to ensure the continued production of affordable housing for your constituents.

NYSAFAH is the industry trade association that connects and informs key stakeholders. NYSAFAH members include developers, contractors, professional service firms, and financial institutions constructing and preserving affordable housing. Our members collectively build and preserve the vast majority of New York State’s affordable housing.

What Is Affordable Housing?

Affordable units meet all the following criteria:

- Less than 30% of the tenant’s gross household income is spent on housing costs
- Public resources are used to fund the units
- Tenants must meet certain income requirements to qualify*

* Income thresholds are based on Area Median Income (AMI), as defined by the U.S. Department of Housing and Urban Development.

How does Affordable Housing Impact Neighborhoods?

Investment in affordable housing drives economic growth and benefits communities. New construction revitalizes neighborhoods and attracts businesses, services, residential construction and other private and public investment.

A 100-unit affordable housing development in New York State typically generates:

- 175 construction jobs and an additional 20 permanent jobs
- $29.6 million in economic spending during construction and $3.6 million in sustained local economic activity
- $9.6 million in worker compensation during construction and $1.3 million in annual worker compensation thereafter

How Is Affordable Housing Financed?

Affordable housing developers utilize more than 150 local, state and federal programs to help finance development.

- Low Income Housing Tax Credit (LIHTC): provides a dollar-for-dollar reduction in federal tax liability to investors in affordable housing projects for households at or below 60% AMI. LIHTC is the largest driver of affordable housing production nationally.
- Direct appropriation or subsidy: one-time or ongoing assistance. Subsidies include grants, rental vouchers, and loans provided by the local, state and/or federal government at below market rate terms.
- In-kind subsidy: low-cost land or property conveyed at below market rate terms.
- Tax relief: incentives, deductions, abatements, and exemptions provided to the project owner in exchange for making units affordable to tenants.

Affordability Crisis in New York State.

- 3 million households in New York State are considered rent burdened, paying more than 30% of their gross monthly income on housing
- More than 1.5 million households are severely rent burdened, paying more than 50% of their gross monthly income on housing

The Power of Affordable Housing in Action:

The Meadows at Middle Settlement (New Hartford, NY)

- The revitalization of a senior living complex in New Hartford will result in 93 new energy-efficient units, creating apartments that will serve the local senior community for the next 50 years.
- Each building will have a community room, elevator, laundry, and WiFi.
- Funding for the project is a combination of as-of-right tax credits, state low income tax credits, Community Development Block Grant funds, and state loans.
- New York State Homes and Community Renewal Commissioner RuthAnne Visnauskas said, “The new construction of these 93 units, which will be larger than the ones being replaced, will enhance the quality of life for its residents so they can stay in the community they love, while the financing agreement with Beacon Communities will keep this complex truly affordable for the next half-century.”

County: Oneida
Developer: Beacon Communities LLC

Woodrow Wilson Townhomes (Amsterdam, NY)

- Redevelopment of a 1970s Mitchell Lama property that was part of the UDC portfolio and highly distressed.
- The Gut Rehab of 100 family and large family townhouse units. Completed in 2015.
- The rehab led to modern, energy efficient units and a 49% reduction in energy usage.
- This was an occupied rehab and tenants were temporarily relocated to permit construction.
- 93 of the 100 units are set aside for families at or below 50% of the AMI and three units are reserved for Market Rate tenants to honor the Right to Return of former higher income tenants.
